

## Surgical Technology

- Program Content:** The content includes, but is not limited to, communication and interpersonal skills, legal and ethical responsibilities, anatomy, physiology, pathophysiology, microbiology, aseptic techniques, patient care procedures, surgical technology procedures, patient safety, use and care of equipment and supplies, CPR, employability skills, and basic computer literacy. In a simulated surgical environment, students practice preparing, setting up and maintaining a sterile field, sterilization and disinfection procedures, preparation of supplies and equipment for surgery, and patient preparation. Clinical learning experiences in an operating room and related areas are an integral part of this program. The Surgical Technology program is designed to prepare students for employment as surgical technologists. The program is in accordance with the Florida Statutes for Surgical Technology. Students are prepared to sit for the examination to become a Certified Tech in Surgery (TS-C).
