Our Mission Statement

The mission of Manatee Technical College is to produce highly skilled individuals and resourceful leaders through collaborative education to meet the ever-changing needs of our communities and the workforce.

Today's commencement is a celebration of the accomplishments of our graduates. On behalf of the entire Manatee Technical College community, congratulations to the spring class of 2025 for reaching this milestone. It's a wonderful time to bring together all of our Manatee Technical College faculty, community stakeholders, school district staff, business and industry members, and our graduates' friends, families, and loved ones to celebrate this significant achievement.

The accomplishments of our graduates are a testament to their hard work and dedication. The education provided by our highly skilled instructors, along with all the processes in place to support our students on their educational journey, is second to none. MTC is the largest public technical college in the state of Florida, offering the most programs, and we believe it is the very best. We are very proud of our graduates.

Please know your current and future success is a direct reflection of all of us at MTC, and we would like to hear from you in the years to come.
